

ADVANCED AUTOMATION

- Enable dynamic requests for early payments in real-time
- Automatically prioritize discounted invoices for processing & calculate discounts
- Rapidly see & apply discounts to invoices even before they're entered into the ERP system

CASH MANAGEMENT

- Optimize early payments dynamically to maximize discounts
- Dynamically adjust cash pool available for early payments, based on financial goals
- Inspyrus Discount Optimizer allows suppliers to optimize early pay discount requests across all outstanding invoices (accelerating cash inflows), and customers to optimize the expedited processing of discounted invoices (maximizing discounts received)

DYNAMIC DECISIONING

- Use rich spend analysis to quickly develop your discount program and identify the best supplier candidates
- Advanced algorithms help rapidly segment suppliers into optimal discount tiers
- Automatically recognize and apply pre-existing discount terms to expedite invoice processing

UNPARALLELED INNOVATION

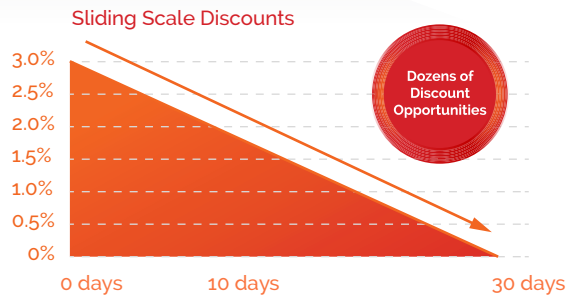

BENEFITS

- Increased early-pay discounts
- Elimination of missed discounts
- Increased supplier adoption
