

What Has Your ERP System Done For You Lately?

INVOICE AUTOMATION RE-IMAGINED

over **90%**
Automated AP Operations

3X cost savings
Over Legacy Approaches

360° visibility
of the Entire AP Process

THE PROBLEM WITH LEGACY INVOICE PROCESSING SYSTEMS

Invoice processing is increasingly cumbersome and expensive given the reliance on manual paper-based processes, lengthy approval cycles and error-prone data-entry into your financial systems. Today's legacy invoice automation and imaging solutions only automate 20% of the entire business process because they focus only on image and data capture automation causing over 80% of invoices to have exceptions in your ERP systems. That creates a significant drag on business performance and accrual blindspots. New "as-a-service" vendors have only taken this same inefficiency and moved it to the cloud.

THE BETTER WAY

Inspyrus offers the most innovative and comprehensive invoice automation solution on the market. With Inspyrus you get true end-to-end process automation for Accounts Payable that is integrated real-time with all your ERP systems—all from a single application.

INSPIRUS TRANSFORMS YOUR FINANCE OPERATIONS INTO A PROFIT CENTER

The Only Integrated AP Automation, Discount Management and Supplier Enablement Solution on the Market

FULLY INTEGRATED WITH THE LEADING ERP SYSTEMS

ADVANCED AUTOMATION

- Automates up to 90% of invoice processing by integrating real-time with all ERP systems
- Eliminates paper, manual data-entry and associated errors
- Automates 2/3-way PO match and GL coding to accelerate invoice processing and eliminate exceptions
- Configurable business rules increase automation flexibility

BEST PRACTICE WORKFLOWS

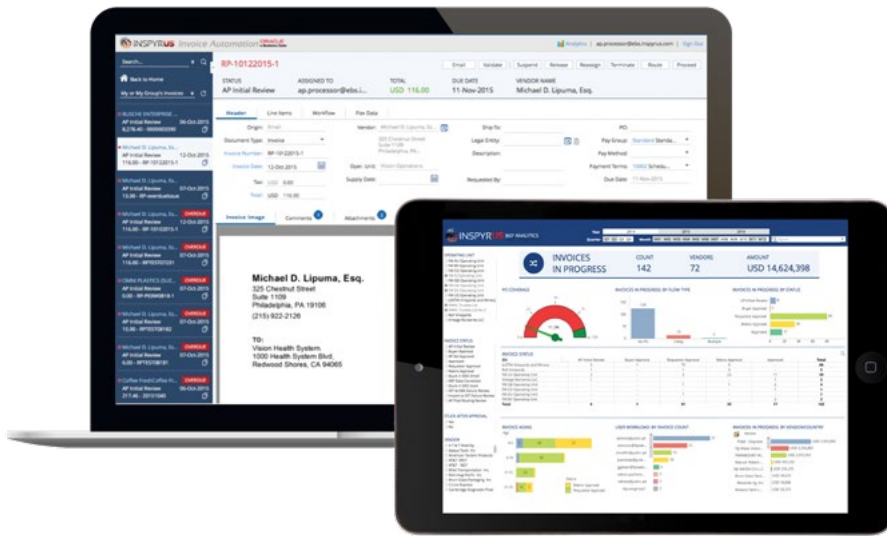

- Provides out-of-the-box, best-practice workflows for non-PO invoices, 2/3-way PO invoices, check requests, credit memos, freight invoices, exception handling...and more
- Includes all actions and actors in a streamlined and unified workflow
- Enables and enforces process standardization across the enterprise
- Provides complete workload balancing, audit trail and compliance support

MODERN UX & ANALYTICS

- Single, unified application integrates real-time with all ERP systems
- Instant access to information on invoices, payments, discounts, penalties, suppliers, PO coverage, cycle time, user workload and user delays
- Mobile support enables approvals anytime, anywhere
- Consolidated reporting across all processes and ERPs

UNPARALLELED INNOVATION

Multiple ERPs

SINGLE APPLICATION

Real-time integration, common user experience regardless of ERP

End-to-End Visibility

ADVANCED ANALYTICS

Consolidated view across all processes and ERPs with 100+ reports

Integrated

TOTAL SOLUTION

Maximize cost savings, cash-back returns, and supplier collaboration

Rapid Implementation

FLEXIBLE DEPLOYMENT

Cloud, On-Premise Hybrid, and Managed Service hosting options for maximum budget, and provisioning flexibility

● Next Generation Invoice Automation and Payment Monetization

● Shortest Deployment Time in the Market

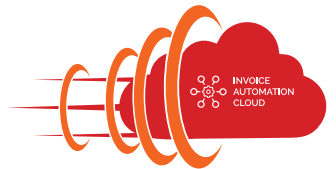

● Fully Managed Hosting

● Reduces 50% Upfront Cost and 40% Year-Over-Year Cost

● Certified SaaS Compliant SSAE 16/SOC1/SOC2

● Multi-Tenant Architecture Built from the Ground Up
